Fight back against Donald Trump’s attacks on Californians

Donald Trump plans to take billions of dollars in funding away from California so that he can give hundreds of billions of dollars in tax cuts to big corporations and wealthy investors. Currently, big corporations like Chevron are exploiting a major tax loophole in Prop 13 to pocket \$9 billion a year and disinvest in our schools, healthcare, libraries, parks and other important local services. It’s time for California to fight back. The Make it Fair campaign will close this loophole to make big corporations pay their fair share.

Together we can:

Fund local schools and vital services. Make it Fair will restore funding where it counts—with over \$9 billion a year, California can educate our children, build affordable housing, train workers, tend to our parks and so much more.

Maintain protections for residential properties. Make it Fair will leave existing rules in place for homeowners and renters, whose taxes go up when corporations aren’t paying their fair share.

Support small business. Make it Fair will level the playing field and help small business compete against big corporations with an unfair advantage.
